March 20, 2020

The impact of COVID-19 on our community is something your credit union is monitoring closely. The health and safety of our staff, members and our community are at the center of all the decisions we are making during these extraordinary times.

**Out of the abundance of caution, we have decided to keep our doors locked during business hours effective March 23, 2020 until further notice. Members can knock on the door to gain entrance, or can call and make an appointment for in-person visits to sign documents or discuss account situations.**

**We're here for you.**

Our continuity strategies allow us to be prepared for events such as these. We are reviewing staffing, facility workarounds, information from the CDC, third-party vendor readiness and a multitude of other factors to make sure we are here to provide you with everything you need.
